

ARMY READY FOR DEFENSE OF CITY SHOULD EL PASO BE ENDANGERED

General Bell Explains That
Disposition of Troops Is
Merely Matter of Taking
Proper Precaution.

FUNSTON ASKED FOR MORE THAN 8,000 MEN

New Mexico National Guards
to Mobilize at Columbus,
Arizona at Douglas and
Texas at San Antonio.

(BY MORNING JOURNAL SPECIAL LEASED WIRE)
El Paso, Tex., May 9.—A battalion of the Twentieth infantry, numbering about 250 men, was moved from Fort Bliss late this afternoon and stationed near the stock yards, dominating the Mexican section of El Paso. The stock yards are about a mile from the river and Juarez. The battalion carried machine gun equipment.
Two companies of the Twentieth were stationed at the court house and at the union station. All are under the command of Colonel Hasbrouck.
Merely Precautionary.
General Bell's troop dispositions were taken, he said, merely for precautionary purposes. In view of the tense situation, it was deemed best to leave no step unturned that might avert trouble at this end of the international bridge. The troops moved into the city from Fort Bliss consisted of five companies of the Twentieth infantry under the command of Col. Alfred Hasbrouck. One of these was a machine gun company. Three companies were stationed at the stock yards, dominating the Mexican section of El Paso. One company, the machine gun outfit, was placed at the court house, where Colonel Hasbrouck established his headquarters. The fourth was placed at the union station, a short distance across the river from Juarez.
All was hustle and bustle around the private car occupied by Generals Scott and Funston following receipt of the news from Washington that the militia of Texas, Arizona and New Mexico had been ordered to the border, that three regiments of the regular army would also reinforce the patrol.
Funston Asked for More.
It is known that General Funston had asked the war department for a much larger number of troops than were allowed under the command of the temporary headquarters of the southern department when word came that no more than 8,000 additional troops would be sent to the international boundary. However, word was passed ahead for the disposition of what reinforcements were at hand.
The first thing done was to choose mobilization points for the militia. San Antonio in Texas, Columbus in New Mexico, and Douglas in Arizona, were picked. It is believed that the regular army men will be divided between El Paso and San Antonio.
Making allowances for the usual trouble in obtaining rolling stock, all of the reinforcements are expected to reach the border within a week's time. Probably most of them will have been trained after four or five days. Transportation of infantry does not offer the problem presented in the carrying of cavalry, although the bringing of troops from such far distant points as Oswego, N. Y., and Seattle, Wash., is no easy task.
The Feeding Problem.
In preparation for the feeding of the additional troops the quartermasters here and at San Antonio and Columbus already are working overtime setting ready for the shipping of supplies. Immense stores of rations have been on hand here and at the other points for some time and these can be utilized until new requisitions can be filled.
The withdrawal of A. J. McQuatters, president of the Alvarado Mining & Milling company, from the fifth conference was one of the interesting developments of the day. Mr. McQuatters arranged the second conference, at which General Scott and General Obregon drew up their tentative agreement, and had been present at each subsequent meeting until today.
About noon Sub-Secretary Amador called on General Scott in his car and informed him that the Mexican conference objected to the presence of Mr. McQuatters at another conference. He asserted that Mr. McQuatters had been a former supporter of Huerta and of Villa, that because of his mining interests in Mexico he had interventionist tendencies, and that he had not preserved secrecy regarding proceedings at previous conferences.
Exiting Conference.
The discussion between General Scott and Secretary Amador appeared exciting as viewed through the car windows. Amador shook his finger excitedly in General Scott's face, and General Scott replied by waving a paper he held at the sub-secretary. When the Mexican official left it was with the impression that his objection had been overruled.
Later in the day Andres Garcia, Mexican consul in El Paso, wired Mexican Ambassador Arredondo at Washington to protest to Secretary of War Baker against Mr. McQuatters taking part in the negotiations again. Nevertheless, when General Obregon and Secretary Amador appeared at Gen-

eral Scott's car about 5 o'clock, Mr. McQuatters was on hand.
Only a few minutes passed before Mr. McQuatters came out of the car, leaving the conference to proceed without him. He did not explain what had caused his departure.
Much speculation was indulged in here regarding the action of Governor Mirreles, of Coahuila, in sending 1,000 Carranza troops to the Big Bend district to hunt down the bandits who attacked General Scott's camp Friday night. Military men were of the opinion that if a break in the relations between Mexico and the United States should ensue, this force would be in a position to do serious execution along the border.
Disposition of Troops.
Following is the preliminary disposition of troops ordered to the border:
Regimental headquarters and one battalion of the 21st infantry, Yuma, Ariz.
Two companies of the 13th infantry, now at Yuma, to rejoin the regiment at Nogales.
One battalion of the 21st infantry to Nogales.
Regimental headquarters and two battalions of the 14th infantry to Douglas.
Third infantry from various points in New York state to Eagle Pass.
Thirtieth infantry from Plattsburg, N. Y., to Rio Grande City.
Eleventh company of coast artillery equipped as infantry to Fort Sam Houston for distribution along the Texas border.
Three batteries of the Third field artillery to Fort Sam Houston for distribution.
Texas militia to Fort Sam Houston. New Mexico militia to Columbus. Arizona militia to Douglas.

ARMY BILL MAY BE AGREED UPON WITHOUT DELAY

National Guard Lobby Kills
Volunteer System; Regular
Force Likely to Be About
180,000; Nitrate Plant Safe

(BY MORNING JOURNAL SPECIAL LEASED WIRE)
Washington, May 9.—Agreement on the army reorganization bill was in sight tonight. Conferees of the senate and the house, who will renew deliberations tomorrow, expect to be able to reach a compromise as early as the first of the big defense measures may be on the president's desk next week.

No Volunteer System.

That the senate conferees would agree to surrender the volunteer army reserve of 251,000 men which the house so strongly repudiated yesterday, was admitted tonight by senate leaders, but they hope to strengthen the provision of the house bill authorizing military training for thousands of citizens may be afforded and a nucleus of a volunteer army thus be built up. The senate conferees believe it would be useless to hold out longer for the volunteer army in view of the house conference that the national guard should constitute the main reserve military defense force.

Training Camps Substitute.

Under the house bill as it stands thousands of civilian training camps might be instituted under direction of the secretary of war.
It was predicted tonight that this conference would agree on a regular standing army with a peace strength of 175,000 or 180,000 men, with the senate expansive organization system which would make possible recruiting to a strength of 225,000 in time of peace. The house bill provides for a peace strength of 140,000 and the senate bill for a peace strength of 250,000. The conferees also are expected to agree to the main features of the house bill regarding the reorganization and federalization of the national guard, thus providing for a national reserve of approximately 400,000 men.

Nitrate Plant Likely.

The house amendment for a nitrate plant probably will be accepted. Under the \$20,000,000 would be appropriated for the government. Agreement on minor features of the bill, such as military training in schools and colleges and organization details, is expected without much delay.

German Aeroplane Burned.

CAVALRY FORCES MOVING TOWARD MEXICAN BORDER FROM MARATHON

Long Range Fight Across Rio
Grande Between Bandits
and Troopers and Texas
Rangers Believed Bloodless.

SEVERAL LARGE BODIES OF VILLISTAS LOCATED

Only Two Dead Outlaws Discovered in Vicinity of Glenn Springs, but Others Are Believed Slain.

(BY MORNING JOURNAL SPECIAL LEASED WIRE)
Marathon, Tex., May 9.—The two troops of the Eighth cavalry now moving toward Boquillas on the Rio Grande are camped tonight at Miller's ranch, seventy miles from here, while the two troops of the Fourteenth cavalry and a machine gun troop that left the Marathon base this morning pitched camp thirty miles south at Henderson's ranch.
These troops probably will concentrate at Boquillas, where Colonel F. W. Sibley, in command, will after a conference with Major Langhorne, determine their disposition. Capt. Casper Cole, of the Fourteenth cavalry, who has been making observations along the Rio Grande to determine the whereabouts of Villista bandits, came in tonight from Boquillas and made a report of his scouting work to Colonel Sibley.
Unsettled as to Results.
A long range fight across the Rio Grande between a detachment of American soldiers and bandits took place near Boquillas yesterday afternoon. Captain Cole, reporting the fight, said he did not think there was any killed or injured. Captain Fox, of the Texas rangers, believes that several Mexicans were hit.
Captain Cole informed Colonel Sibley that there were several large bodies of bandits operating along the south side of the river. There were probably five hundred bandits in all, Captain Cole reported. He said he was convinced that there were many Mexican sympathizers with the bandits on the American side who were co-operating with them.
Captain Cole said:
American Side Cleared.
"I went to Glenn Springs Sunday with a detachment of men, scouted the Rio Grande carefully between Boquillas and San Vicente. I am convinced that there are no organized bodies on the American side of the river.
There are organized bodies of bandits on the Mexican side operating in several large bodies. At Lajitas there is a body of 200 Mexicans, while another body of two hundred or so Villistas is making south for Boquillas."
"The bodies of only two dead Mexicans have been found but there were undoubtedly other Mexican dead in Glenn Springs raid. There is a detachment of one cavalry troop at Glenn Springs and another at Terlingua."
There is every reason to believe that Texas possemen have forced the Rio Grande in search for bandits.
Ready for Anything.
Colonel Sibley goes forward tomorrow for Boquillas, where he will join Col. A. C. McComb and Major Langhorne. He said he did not know where he would make his headquarters.
"We will meet every condition that confronts us," said Colonel Sibley, who is an old campaigner in the Sioux country. Colonel Sibley may engage several scouts who have keen knowledge of northern Coahuila.
A signal corps company was busy this afternoon erecting a field telegraph line south to Boquillas.

FIVE KILLED WHEN DYNAMITE EXPLODES

(BY MORNING JOURNAL SPECIAL LEASED WIRE)
Lake Hopatcong, N. J., May 9.—Five workmen were killed and fifteen injured, none dangerously, at noon today when three dynamite mixing buildings at the Atlas Powder company plant at Landing, were demolished by dynamite explosions. Another mixing house was destroyed by fire resulting from the explosion. Many persons here, at Landing, Dover, and other places miles distant, were cut by flying glass from windows shattered by the force of the explosion.
The mixing houses, heavily barricaded wooden structures, were located a half-mile or more from the main buildings of the plant in which 700 men were employed. None of the workers in the structures, which were wrecked escaped death. The men injured, all of whom were at work in the main part of the plant, were cut by glass from broken windows and by debris wrecked loose by the crash.
The explosion was attributed by Superintendent Hederer to one of the "unexplainable accidents" which sometimes occur in the manufacture of explosives. The only explanation he could offer as to the cause was that some one of the men killed made a mistake in "mixing."

Shots and Kills Her Mother.

St. Louis, May 9.—Mrs. Helen Moore shot and killed her mother, Mrs. Helen Patis, today after a quarrel. Mrs. Moore was arrested. She told the police that her mother yesterday threw a tub at her and struck her with a washboard.

FRENCH CURTAIN OF FIRE CHECKS TEUTONS

Grand Duke Nicholas Inflicts
Further Severe Defeat on
Turks in Asia Minor; Battle
on Italian Front.

(BY MORNING JOURNAL SPECIAL LEASED WIRE)
The French and German forces fighting the northwest of Verdun for the moment at least, are deadlocked. The Germans being unable to advance farther and French attempts to expel the invaders from captured positions being unavailing. To the east and northeast of Verdun, where respectively violent infantry attacks and bombardments have characterized the recent fighting, only intermittent cannonading is going on.
Balked by Curtain of Fire.
The only infantry engagement reported anywhere along the French front was launched by the Germans against a French trench to the west of hill No. 304. The French, however, brought into play their curtain of fire and the Germans were unable to dislodge them.
The shelling by the Germans of the Russian front, which has been in progress for many days, still continues. There has been artillery activity on various other sectors of the Russian front but no infantry maneuvers of importance have been reported.
The Russians in Armenia, however, have put down with heavy casualties a stubborn Turkish attack and southward in the region of Mush have driven the Ottoman forces from their defenses in a mountain chain. In addition, the Russians operating westward from the Persian frontier toward Bagdad have deluged the Turks by a fortified positions and driven them farther westward.
Fighting on Italian Front.
The Gorizia bridgehead and the region around San Martino in the Austro-Italian theater have been heavily bombarded. At San Martino, Vienna asserts that the Italians suffered heavy losses through the explosion of an Austrian mine. Bombardments have featured the fighting in other sectors of the front.
Dispatches received in Paris from Saloniki are to the effect that there has been violent activity on the Macedonian front. Semi-official advices from Berlin say that the Turks are rapidly constructing a railroad through the desert preparatory to a raid through Egypt.

FIERCE BATTLE STILL RAGING ABOUT VERDUN

Some Positions Lost Are
Retaken by French and New
Attacks Fail to Make Progress, Says Paris.

(BY MORNING JOURNAL SPECIAL LEASED WIRE)
Paris, May 9 (12:15 p. m.)—After a violent bombardment of the French positions on Hill 299, on the Verdun front, the Germans attempted an advance at 3 o'clock this morning. The war office announced this afternoon that the attack was repulsed completely. French counter-attacks east of the Meuse drove the Germans from certain positions they had captured.
The positions recaptured by the French consisted of some parts of trenches northwest of Thiaumont. An intense bombardment was conducted by the Germans in the sectors of Elix and Chailion and between Douaumont and Vaux.
There was grenade fighting at Apremont and in the valley of the Meuse. South of Apremont, near Soissons, the Germans attempted an attack but were repulsed.
At Bolante, in the Argonne, the French captured two small German posts, killing all the occupants. There were no important developments.

TEXAS GOVERNOR FOR INTERVENTION NOW

(BY MORNING JOURNAL SPECIAL LEASED WIRE)
Austin, Tex., May 9.—Gov. James H. Ferguson, of Texas, on his return to Austin tonight issued a signed statement in which he declared that now was the proper time for United States intervention in Mexico, to restore order in that country. "If it takes one or fifty years,"

Arrested for Mendish Crime.

Cheney, Wyo., May 9.—Reuben H. Shafford was brought to trial in the United States district court today charged with attacking a young woman in the Yellowstone National park in 1914. Shortly after his arrest, Shafford escaped from Fort Yellowstone and was recaptured recently in Minneapolis. Conviction on the charge carries a penalty of death or life imprisonment.

NATIONAL GUARD OFFICIALS BUSY PREPARING FOR MOVE TO BORDER

Feverish Activity in Military
Circles in Santa Fe in Anticipation of Immediate Troop Mobilization.

COLUMBUS SELECTED AS GATHERING POINT

Two Companies in Las Cruces
to Remain at Home on Account of Large Number of
Refugees in Mesilla Valley.

(SPECIAL DISPATCH TO MORNING JOURNAL)
Santa Fe, May 9.—Columbus, Luna county, will be the point of mobilization for the New Mexico national guard, and the troops will begin to move as soon as the railroad assembly the necessary equipment and motive power. This will probably be by tomorrow afternoon.
The two Las Cruces companies for the present will remain at home and will be reinforced by two other companies because of the heavy refugee population in the Mesilla valley. The two remaining battalions of the First regiment of infantry, the battery of field artillery and the hospital corps will proceed directly to Columbus and will probably be the first militia to cross the border into Mexico.
The twelve infantry companies are recruited up to the minimum strength of 45, and tonight are busily recruiting up to the full war strength of 145. Recruits are flocking to the national guard armories by the score tonight and enlisting, so that fully 1,000 men will be mobilized. Recruiting agencies will be maintained at various points, and recruits will be sent forward until the full war strength is obtained.
Officials Are Busy.
There is feverish activity in military circles here tonight. While the mobilization plans had been perfected some time ago, the arsenal and supplies, as well as most of the regimental staff officers have their headquarters here.
Not only the two companies of infantry but the regimental band also will go from Santa Fe. The Red Cross society will meet tomorrow afternoon and begin its activities. The mobilization orders reached into the high school classes, taking three of the boys, and up to the district court, taking Colonel E. C. Abbott from the bench and Captain Edward L. Safford, who was promoted from a lieutenant's office today out of the clerk's office.
Chief Justice Roberts will assign different district judges to preside at Santa Fe as needed. Judge M. C. Mechem is the first judge to be called upon, and will hold district court in Arriba county in Colonel Abbott's place.
Almost every store, shop, office and institution at the capital gives up some of its workers, including the New Mexico museum, which gives up three of its men.

National Officers.

There are twelve companies of infantry in New Mexico, stationed as follows: Las Cruces, 2; Carlsbad, 1; Artesia, 1; Silver City, 1; Santa Fe, 2; Albuquerque, 2; Deming, 1; Clovis, 1; and Portland, 1. Bowles has the field battery and also the hospital corps. The officers of the national guard are as follows: Commander-in-chief, Governor William C. McDonald; adjutant general, Harry T.
